

Now Book Ambulance through App.

Chandigarh: MUrgency, the one-touch emergency response app introduced Book an Ambulance and Home Care features today. To book a basic, cardiac or neonatal ambulance or to get a qualified doctor, nurse, physiotherapist or patient attendant at home, users can simply download the app, choose the type of service, enter a pick up location and time. Within minutes, the user will be connected to the right service provider registered on the Murgency Network.

"Launched in Feb 2016, MUrgency today has 16,000+ users across Punjab. In response to user demand, we have now launched Home Care and Ambulance Services. With MUrgency, booking a Doctor, Nurse, Physiotherapist or Patient Attendant at Home is as easy as a click," says Ms. Sweta Mangal, Director, MUrgency Inc. Conceived and founded by social entrepreneur Shaffi Mather, the venture is backed by Mr Ratan Tata, and Infosys Co-founders Kris Gopalakrishnan & S. D. Shibulal. Shaffi Mather, Founder and CEO, says, "We strive to make MUrgency a one-stop solution for emergency response & healthcare."

MUrgency is also launching a unique Health Monitoring Package, designed for parents of those who live abroad or in a different city. MUrgency will provide regular doctor visits at home, access to a 24/7 help center, and medical concierge services.

Launched earlier this year in Chandigarh, the MUrgency app receives an average of 25 requests per day. The most popular feature on the app, Ask a Doctor, allows you to chat with a MUrgency Network doctor, and get replies in 15 minutes, 24/7, free!

MUrgency is a fast, easy and reliable way to get access to the best healthcare resources.

The app is currently available for download on both iOS and Android platforms. Home Care Services & Ambulance are accessible on their app, website (www.MUrgency.com) and Whatsapp (91 8291791431)
